

First name/Surname: Mahdi Atabaki

Address: Department of Immunology, Zahedan University of Medical Sciences, Zahedan, Iran

Telephone: +98 5433295715

Cell Phone: +98 930 3043900

E-mail: atabaki80@gmail.com

Nationality: Iranian

Date of birth: 25 May 1980

Gender: Male

Marital Status: Married

Education

Kerman University of Medical sciences

Master of Science (MSc), Medical Immunology 2010- 2012

Mashhad University of Medical sciences

Doctor of Philosophy (PhD), Medical Immunology 2017- 2020

Publication

- 1- Curcumin as an effective suppressor of miRNA expression in patients with knee osteoarthritis
- 2- Significant Effect of Crocin on the Gene Expression of MiRNA-21 and MiRNA-155 in Patients with Osteoarthritis
- 3- Association between NOD2 gene polymorphisms and susceptibility to pulmonary tuberculosis in Zahedan, Southeast Iran

- 4- A significant association between CXCL10 -1447 A > G and IL18 -607 C > A gene polymorphism with human T-cell lymphotropic virus type 1 associated myelopathy/tropical spastic paraparesis (HAM-TSP), a case-control report from city of Mashhad, Iran
- 5- MicroRNAs as the important regulators of T helper 17 cells: a narrative review
- 6- Significant immunomodulatory properties of curcumin in patients with osteoarthritis; a successful clinical trial in Iran
- 7- Evaluation of haptoglobin phenotypes in acute myocardial infarction (AMI) and their association with some risk factors
- 8- Investigate total protein level and salivary albumin in patients with oral squamous cell carcinoma
- 9- Association between interleukin-1 receptor associated kinase 1 rs3027898 A/C gene polymorphism and rheumatoid arthritis
- 10- Comparison of urinary median level of MCP-1 between children with urinary tract obstruction and healthy children
- 11- Lectin, galactoside-binding, soluble, 3 rs4652 A/C gene variation and the risk for rheumatoid arthritis
- 12- CD226 rs763361 (Gly307ser) polymorphism is associated with susceptibility to rheumatoid arthritis in Zahedan, southeast Iran
- 13- Association of PTPN 22 rs2476601 and EGFR rs17337023 Gene polymorphisms and rheumatoid arthritis in Zahedan, Southeast Iran
- 14- Association of pre-miRNA-146a rs2910164 and pre-miRNA-499 rs3746444 polymorphisms and susceptibility to rheumatoid arthritis
- 15- Association of IRGM polymorphisms and susceptibility to pulmonary tuberculosis in Zahedan, Southeast Iran
- 16- A possible relationship between polymorphisms of glutathione S-transferase M1, P1 and T1 genes and rheumatoid arthritis in Zahedan, Southeast Iran
- 17- A review of PD-1/PD-L1 siRNA delivery systems in immune T cells and cancer cells
- 18- NLRP3 inflammasome activation and its inhibitory drugs in connection with COVID-19 infection
